A TRUSTED RESOURCE TO FIND ALLIES IN K-12 EDUCATION

The Friends of ASBA, a sister organization of the Arizona School Boards Association and separate 501(c)(4) corporation, is dedicated to leading a more informed public discussion of K-12 education in Arizona and fostering greater understanding and support for our public schools and the more than 1 million students who attend them. The mission of the board of directors is to provide a strong, equal-access, issue-focused voice that is pro-public education.

The Friends of ASBA is focused on educating the people of Arizona so we, as a state, continue to prioritize a quality public education for all children as both a civic and an economic virtue.

This publication focuses on the impact of the Arizona Legislature, specifically the votes of individual legislators on key bills impacting K-12 education and district public schools. Within this book, you’ll also find key demographics on the students in your legislative district and what makes them unique.

School board members and other school district leaders are familiar with the color-coded voting records format, which provides at-a-glance insights into the level of support – or lack of support – each Arizona legislator provided for Arizona public school districts and the local school boards who govern them.

This seventh edition of the Friends of ASBA voting record contains updated additional legislative district data that illuminates the populations and constituents served, voter participation and registration from the 2020 election, and indicates whether your state representatives supported advancing a pro K-12 education agenda this session.

Please use this book as a guide to assess how well your legislators served you in 2021, and touch base with them before the next session of their term begins. Now more than ever, we must hold our elected officials to a higher standard and work to elect and retain candidates who don’t merely say they support public education, but are fighting along with us.

We encourage you to share this resource far and wide.

Sincerely,

Dr. Sheila Harrison-Williams
Executive Director, Friends of ASBA
USING THE VOTING RECORDS

Arizona’s 90 elected state legislators serve constituents in our state’s 30 legislative districts. Each district has two representatives, who serve in the state House of Representatives, and one senator, who serves in the State Senate. On the following pages, you will find an overview of each legislative district and a record of legislators’ votes to highlight those who support and do not support public education in Arizona.

The information is separated into two pages. The first includes data about the legislative district itself with the names and party affiliation of each elected representative, the partisan split of registered voters, and data regarding voter turnout in the 2020 General Election. It also includes the most recently available census data on race/ethnicity of the total population, and the population under age 18 within the district. Also, note the number of school districts within each legislative district and the student enrollment of each. Due to COVID-19, the release of updated Census data has been delayed and even cancelled in some cases. The statewide data is updated, but much of the Legislative District-level data is not.

The second page displays the voting record of each legislator in that district on key K-12 education bills.

FRIEND OF PUBLIC EDUCATION

Legislators will be rated on whether their overall record during the session was supportive of public education or not, in the estimation of Friends of ASBA. This rating is based on voting record, but also how helpful (or not) a given legislator was in advancing the ASBA political agenda during the legislative session, and how the legislator acted toward public education in general. A legislator may earn thumbs up, thumbs sideways or thumbs down. This is based in part on the member’s voting record, but also on other issues that may occur behind the scenes, such as helping to get bills heard (or not) in committee, helping to prevent bad bills from advancing, etc. Helpful actions are recognized by “extra credit.” We also consider the relative competitiveness of the Legislative District, as well as whether the member is accessible and/or open to dialogue. This is intended to help our supporters determine at a glance which legislators have been helpful to the mission Arizona public schools and the 1 million-plus students who attend them. If a legislator earns a “Thumbs Up” during both years of their legislative term, they earn a Champion of Public Education trophy.

LEGISLATOR ACCOUNTABILITY

How Did Your Legislators Vote On Key Legislation in the 2020 Legislative Session?

The Fifty-Fifth Legislature, First Regular Session adjourned sine die at 4:54 p.m. on June 30, 2021, after 171 days. The general effective date for non-emergency bills is September 29, 2021. Appropriation bills and bills with an emergency clause are effective immediately upon the signature of the governor.

Without you, our advocates, our mission to ensure the success of all students would not be possible. This interim, we encourage you to use this guide to engage with others to educate them on how their representatives act over time. The following bill summaries represent the pieces of Legislation we felt had the greatest impact on K-12 schools this session. For a detailed summary of these bills and more, please consult the Comprehensive Legislative Wrap Up Brief published by ASBA.
